

# What Users Have To Say

"A terrific piece of software that has increased my efficiency dramatically. I cannot imagine running my firm without it."  
Ken Wolfe, Wolfe Law P.C.

"Unlike other case management programs we considered, litigators designed Case Advantage. We're in our fifth year of use, and could not manage our complex, high-volume practice without it. According to our accountant, it paid for itself in eighteen months. It has improved our bottom line every year since. Because Case Advantage manages all those crazy-making little details of our practice so well, we get to focus more on the art of lawyering. You will not regret adding it to your arsenal."  
Michael J. Evers, Effenbaum Evers & Amarilio, P.C.

"I wanted to take this opportunity to thank you for the Case Advantage software system. Our law firm has used this system for over two years, and I am proud to state it really, really works. Your system is easy to use and does a wonderful job in helping our office be exceptionally efficient and productive. I heartily endorse your design and usefulness. Thank you for providing such a fine product."  
Neal Strom, Strom & Associates

"Case Advantage has enabled our firm to handle more files. It is extremely convenient to have all the file information at the tip of your fingers instead of having to pull each file individually and flip through tons of paper. Case Advantage has helped us become more efficient when we are creating documents and speaking to clients, adjusters, attorneys, etc. It has a great tool that allows you to download information from the Illinois Workers' Compensation Commission for each individual case. We don't have to go to the commission web site for specific information -- it is already at our fingertips. Case Advantage is a wonderful program and has clearly had a direct and positive effect on our firm!"  
Corti, Aleksy and Castaneda PC

"I have been using Case Advantage since its inception. It is the single most productive addition to my office. It is a time saver. When the client calls, I pull his file up on the computer, and he knows that I know his case. I have recommended this product to numerous worker's compensation attorneys."  
Richard Hannigan

CASE  ADVANTAGE  
Worker's Compensation Case Management Software

# Get An Advantage Today!

Case Advantage software is a comprehensive and streamlined case management system for Illinois worker's compensation law firms that enables you to:

- ✓ Automatically integrate update calls from the Industrial Commission directly into your data system, including new line numbers, call dates, and arbitrators
- ✓ Instantly view complete details of each and every case, and sort data by venue, counsel, line number, employer, carrier, arbitrator, and more
- ✓ Log and track actionable events in organized case files
- ✓ Keep track of appointments with multi-user scheduling
- ✓ Alter data system-wide with Global Contact Management
- ✓ Seamlessly integrate data merge files and finances with Word® and QuickBooks®
- ✓ Use Settlement Planner to manage negotiations & terms
- ✓ Customize and edit all IWCC forms and settlement contracts
- ✓ Track medical records for multiple body parts, variable rates, percentages of loss and TTD intervals – all on one set of Pinks
- ✓ Transfer your existing database directly into a state-of-the-art management system

Law firms in the Worker's Compensation industry are constantly struggling to manage the large quantities and complexities of data necessary to process cases: client documents, docket calls, case contact data, settlement proposals, expense reports, medical bills, and so on – the list can seem endless! Case Advantage is a customized solution to this data management quandary. The leading case management program for Illinois Worker's Comp law firms, it is a flexible asset that can be formatted to address your firm's specific needs.

After ten years of working with legal clients, Case Advantage was developed by George Jon Inc. in response to ongoing issues they saw in their legal clients' inability to accurately, easily, and efficiently manage case data. Law firms of all sizes and shape struggle unnecessarily in dealing with increasingly complex and labor-intensive cases, and Case Advantage is the solution.
